PAAVAN ENGINEERING

Bright Bar Machinery – Product Range

Overview

With over 30 years of experience in the bright bar industry, we specialize in manufacturing high-performance machinery designed for precision, durability, and consistent output. Our deep industry knowledge ensures reliable solutions tailored to modern bright bar production requirements.

DRAW BENCH MACHINE

Our Product Line

Draw Bench Machine

Heavy-duty machine for bar drawing operations, providing uniform size reduction with high efficiency and precision.

POINTING MACHINE

Efficient solution for reducing bar end diameter, ensuring smooth entry into draw bench operations.

POLISHING MACHINE

One setup for all sizes—just change the speed for small to heavy bars and start polishing.

PUSH POINTING MACHINE

Advanced pointing solution that enhances productivity by reducing manual effort and increasing processing speed.

STRAIGHTENING MACHINE

Specially designed for straightening flat and square bars, ensuring accurate alignment and dimensional consistency.

CONVEYOR STAND

Robust material handling systems for smooth and efficient transfer of bars across production stages.

INDUSTRIAL CHAIN

Heavy-duty chains designed for high load capacity, ensuring smooth and reliable performance in draw bench operations.

CNC, VMC MACHINED COMPONENTS

Precision CNC & VMC machined components manufactured to exact specifications.
exact specifications

INDUSTRIAL GEAR BOX

High-torque gearboxes built for reliable power transmission and continuous operation in demanding industrial

PAAVAN ENGINEERING

INDUSTRIAL SPROCKETS

Customized sprockets designed as per chain pitch and capacity, ensuring precise fit and efficient power transmission.

CARBIDE PELLETS

Special-grade carbide pellets offering high wear resistance and long life for bright bar drawing and tooling applications.

Why Choose Us

- 30+ Years of Industry Experience
- Proven expertise in bright bar machinery manufacturing
- Durable and high-performance machines
- Custom-built solutions as per requirement
- Strong after-sales support

15 Years of Trust: Our first polishing machine has been running daily for 15 years without a single repair!
